AN ENGLISH BOY IN DUBAI

I'm Liam. I'm 15 years old and I'm from London. My parents are working in Dubai this year so I'm writing all my news about life here on this blog. Hope you like it!

A DAY AT THE MALL

POSTED BY ENGLISHBOYINDUBAI

🕒 SATURDAY 20 APRIL

Today I'm spending the day in Dubai Mall with my family. It's great! It's got about 1,300 shops, 26 cinema screens and over 200 cafés and restaurants.

More than 80 million people visit the mall every year because there are a lot of cool things to do here. Luckily, there aren't only shops because I hate shopping. It's awful! My dad and my sister are watching the fish right now in the wonderful **Underwater Zoo**. There are more than 30,000 marine animals – even sharks!

Outside it's boiling so why am I wearing a sweater? Because I'm skating on the **Olympic-sized ice rink** and it's absolutely freezing. The temperature of the ice is below zero! After the ice rink, I want to go to the mall's theme park, **Sega Republic**. It's brilliant – it's got 250 games and rides.

And what are my mum and aunt doing? They're looking at the **Dancing Fountain**. It's 152 metres high! At night, there's an amazing light show. On a clear night, you can see it from space!

FACT! The Dubai Mall is absolutely huge! It's the size of 50 football pitches.

RED NOSE DAY!

Do something funny for money!

Red Nose Day is a charity day which happens every year in the UK. On this day, lots of people in Britain wear red noses and do something funny. They ask other people to give them money which goes to a charity to help people all over the world.

Think of something unusual you would like to do. How about having red hair for the day? Before the big day, your friends and family say how much they would like to give you to do this and later you give this money to charity.

You can do all kinds of cool things at school too. Talk to your teachers and decide together! Perhaps wear something red to school instead of your school uniform. Or play 'red nose day' games instead of having normal lessons?

And where does this money go? In the UK, it can help to find homes for young people who are living on the street. In Africa, the money can buy important medicine or give fresh water to villages.

FACT! Red Nose Day is over 35 years old. Over the past 35 years people have given more than £100,000,000 to charity!

Remember some tablets are better for playing games and others are good for looking on the internet.

DANIELLE SMITH'S BLOG OF ALL THINGS JAMAICAN

A SMALL ISLAND FULL OF BIG HEROES

14 OCTOBER

I live on the small Caribbean island of Jamaica. Like many of the 3 million people here, sport and music are very important to me. Perhaps that's why so many sports and music heroes come from our island.

We start playing sports seriously at a very young age. Even at primary school we follow an athletics programme. At secondary school, there's the school athletics championship, or 'Champs'. Every year, about 25,000 people watch some of the heroes of tomorrow. Usain Bolt, the Olympic Gold Medallist, is from Jamaica and he once entered this championship.

As for music, in the 1960s, my own hero Bob Marley introduced reggae to the world. He didn't only sing about happiness, love and sadness. He also sang about how people live and their problems. Today, even our youngest musicians write about our life here on the island. When you next listen to a song from Jamaica, don't forget it's probably about us, our life and our culture!

FACT! The Jamaican bobsleigh team became heroes when they entered the Winter Olympics in 1988. Strange! Jamaica is famous for its sun but not for its snow!

Writing A description of a person you admire

Connectors: *although, because, so, as well*

1 Look at the photo and read Jennifer's description. Is Jennifer's hero famous?

Although most people have got heroes like Nelson Mandela or Usain Bolt, my hero is my granddad. He was born 80 years ago so he's very old. When he was a young boy, his parents died so he lived with his aunt, uncle and cousins in Manchester. Life wasn't easy for them because they never had enough money.

When he was 13, my granddad left school and started working. He wanted to be a vet so he studied a lot. He used to study at night after work as well. He worked really hard and he became a vet when he was 25. It was his dream job.

I like him because he's funny, friendly and kind to everyone, and I admire him because he worked hard to achieve his dream.

I would like to be like him when I'm older.

THE MOST Unusual Hotels IN THE WORLD

There are many different hotels in the world; hotels for doing sports, city hotels or hotels for doing nothing. Last week, we asked you to tell us about the strangest hotels you know.

1 My parents stayed at the coldest hotel in the world – the Ice Hotel in Sweden. Open from December to April, it's the largest hotel made of snow and ice in the world. Their room was -5°C , but they said that the ice bed was more comfortable than their bed at home and the pillows were softer!

2 When my cousin got married, she slept in the underwater room at a hotel in Australia, located on the Reefworld Pontoon, in the world's largest coral reef system – the Great Barrier Reef. Every morning, they opened their curtains and saw the most beautiful fish in the world. They even swam with them!

3 My family lives in the middle of Manchester. On holiday this year, we stayed at a treehouse hotel in a beautiful forest in Northumberland. It was much better than being in the city. Our bedrooms were high up in the trees. It was quieter and more relaxing and we did everything more slowly. But the worst thing? There wasn't any electricity so no TV!

Living in Barrow, Alaska

I'm John, from Barrow in Alaska, which is the most northern town in the USA. So what's it like living here? Well, in November, the sun goes down and it doesn't come up again until January. That means it's dark for 65 days. Of course, these are the coldest months of the year, even the highest temperature is below zero! It's also the most boring time of the year, we can't go out without our parents because it's too dark. Summer is better. In May, the sun stays up so there's no night for 85 days.

Why don't we move somewhere warmer? We love living here.

I know everyone in the town, I love the school and we've got some amazing traditions and festivals.

The best is Nalukataq in the spring when the fishermen return to our town with whale meat. Then, we make a special blanket. It's huge. A dancer stands in the middle of the blanket and we throw him or her into the air. When the dancer is in the air, they throw sweets to the children. It's fantastic – you should come and join us next year!

A GOOD NIGHT'S SLEEP

Life is busy with school, homework, sports and other activities and you really need to catch up on your sleep.

Here are three reasons why you should get more sleep:

YOUR BODY NEEDS SLEEP

As a teenager, you *must* get enough sleep – more sleep than an adult. Your body is still growing and your brain is still developing. Experts say that you should get between eight and nine hours of sleep each night.

SLEEP HELPS YOU DO BETTER AT SCHOOL

When you're tired you can't concentrate in your lessons. It's more difficult to learn.

SLEEP KEEPS YOU HEALTHY

Without enough sleep, your body gets weak, and it's easy for you to catch a cold and other illnesses. When you're tired you often eat food with more sugar in it and that isn't good for you.

TEENAGERS WHO GET ENOUGH SLEEP ...

- usually have better skin.
- eat less junk food.
- are less likely to experience depression.

Reading A magazine article

1 Work with a partner. Look at the photo and answer the questions.

- 2 What can happen if you don't get enough sleep?

- a To offer advice to teenagers.
- b To tell teenagers why their parents complain.

3 Read the article again. Answer the questions.

- 2 How many hours of sleep do teenagers need every night?

La Masia Football Academy, BARCELONA

La Masia is Barcelona's football academy. Some of the greatest footballers in the world graduated from La Masia. The World Cup and the European Championships were full of players from this academy. There are over 700 boys and girls between the ages of 11 and 18 at the academy (about 80 of them live there full time). They go to school until half past two in the afternoon, then they have lunch and a siesta. Most children have to use this time to study and do their homework. In the evening, they watch TV or play video games before they go to bed. For these children, football is their life. They train hard because they want to be the best.

FACT! The amount of energy needed to perform a ballet is about the same as playing two full football matches or running almost 29 kilometres.

The Royal Ballet School, LONDON

The Royal Ballet School in the heart of London trains dancers and choreographers. The school has two buildings, one near Richmond Park for 11 to 16-year-olds and the other in Covent Garden for older students. Students at the school mix normal school subjects with their dance classes. Many famous ballet dancers graduated from this school. To get into the school, students have to audition – they have to perform in front of judges from the school. Those who cannot attend in person can send a video audition. Over 2,000 children attended auditions for the school in 2012. About 100 boys and girls get a place each year. There are students from all over the world. In the evening, when students aren't in class or practising ballet, they can play tennis or play table football in the student halls.

Writing A competition entry

- 1 Look at the photos and read Jon's competition entry. What were his favourite things about summer camp?

COMPETITION!!

WIN A FREE WEEK AT OUR SUMMER CAMP!

Did you go to summer camp? Tell us about your stay. We publish the best ones on our website!

I didn't want to go to summer camp. I imagined an awful place with lots of rules, so Beaufort Camp was a big surprise. We didn't have to get up early and there was plenty of time for breakfast before we started activities at 10 o'clock. There were lots to choose from and they were fun. My favourites were canoeing, volleyball and horse riding. At night, we sat round a fire and we could even sleep outside if we wanted to! The weather was boiling but there was a big swimming pool to cool us down. For me, camp was an incredible experience. I made lots of friends. You should try it!

The best thing about wild camping was the *animals*. There were lots of ¹ **animals** around. On the second day, I saw some *falcons*. ² **The falcons** flew over the trees near the campsite. But the most active animals were *the goats*. ³ **The goats** jump up and down the mountains incredibly fast! I was also amazed at ⁴ **the goats'** huge horns.

COMPUTERS

PAST, PRESENT AND FUTURE

Over seventy-five years ago, in 1948, scientists called the first computer 'Baby'. But it was huge. It needed a whole room to itself! A team of people wrote three Maths problems and then waited 52 minutes for Baby to find the answer to just one of them. At the time, this was amazing.

Computers are now both much smaller, don't forget your smartphone is a mini computer, and also more powerful. There is more power in a smartphone than in all the computers on Apollo 11, the first spacecraft on the moon! What's more, with new touchscreen technology, soon we won't need extra things like a keyboard or a mouse.

How will computers change in the future? A computer's 'brain' is in its chip, and in the future, scientists will be able to save much more information on it. So, computers will be smaller and even more powerful. They will probably think like humans and we won't need to tell them what to do. Today computers are no longer the rectangular objects we know. They are everywhere, often invisible: in our watches, cars, televisions, refrigerators and toys. In the near future, even the light bulb will become a computer, projecting information instead of light!

FACT! Need a new hip, knee or face? Doctors can now use 3D printers to make some parts of the body.

I CAN'T STUDY WITHOUT TECHNOLOGY!

It's 6 am. I'm tired but it's time to get up. After cleaning the chicken house, I have breakfast. School starts at 8 am but my school is in my house, in a room we call the 'study room'. I can't go to school because it's 300 kilometres away so I go to the School of the Air.

How does it work? Well, I sit down at my desk, turn on my laptop and wait for my teacher and my classmates to come online. Today it's Science. Our teacher uses the interactive whiteboard to explain some new ideas. She saves her work on the computer and shares this with us on the website. She then asks us some questions and we listen to everyone's answers. At the end of the lesson, we have to do a quiz on the website so she can see who doesn't understand. This lesson is only half an hour but it's tiring.

I quite enjoy studying at home. It's great to be near my family but I would like to meet my classmates. When I finish school, I would like to go to Alice Springs and study at the college there, then go to university. I want to be a pilot. But first, I've got to finish my Maths homework before the lesson today!

FACT! The School of the Air gives lessons to children in Australia who live in areas without schools. When it first started in 1951, the pupils listened to their lessons over the radio. Nowadays, they use the latest technology.

**THIS WEEK'S
COMPETITION!**

Write an essay about the following subject: 'The future of music'. The winner will get a new tablet!

ANSWER OF THE MONTH!

THE FUTURE OF MUSIC

- a** In the future, technology will change many areas of our lives including how we buy and listen to music.
- b** **Firstly**, technology will change the way we buy music. Some people think that in a few years nobody will buy CDs and we will stream all our music from our smartphones. We won't even need a smartphone as our clothes will probably play music. **However**, others say that some people will always prefer to buy CDs from shops. For example, my dad loves talking to the shop assistants and bringing home new music.
- c** **Secondly**, technology will change which music we listen to. In the future, we won't choose what we want to listen to because our phones will know what we like and decide this for us.
- d** **In conclusion**, I'm sure that things will be different in the future but, in my opinion, some people will always want to buy CDs in a music shop and this will never change.

TWELVE WEEKS IN THE LIFE OF A VOLUNTEER IN GOA

This week, eighteen year old Laura Byrne tells us about her year out.

Four per cent of the children in India are orphans which means they don't have any parents. And for the next twelve weeks, I'm helping in an orphanage, a home for orphans, in Goa, India.

When I arrived two weeks ago, the project manager was waiting for me at the airport. For the first week, we had Hindi classes. We also learned about Indian culture and our project.

I'm working with the younger children. A lot of them had difficult lives before they came here so we have to make sure that they feel safe and happy with us. In the morning, I help with English classes, reading and Maths. We also play games and sing songs. Then I help them with their lunch which is usually chicken or vegetable curry with rice and chapatti, a flatbread from India.

It's very hot here so people wear loose clothes. Women often wear colourful saris made of silk or cotton and men wear dhotis, a kind of long white skirt. This afternoon the older girls are going to show me how to put on a sari.

FACT! Curry is a dish of meat, fish or vegetables cooked in a spicy sauce. Curry comes from the Tamil word 'Kari' so this dish probably comes from India. However, curry is also one of the national dishes in the UK. There are more curry restaurants in London than in Mumbai.

AN ACCIDENT WAITING TO HAPPEN

Mick Wilary is a very unlucky man. Over the last 30 years he has had more accidents than anyone else in Britain. He has broken fifteen different bones, and has had more than 30 injuries.

Mick works on a farm and often works with dangerous machines and animals, so some of his accidents have been very serious. In 2010 a machine trapped him and he broke both his legs. He had three operations and spent six months in hospital.

When he was a boy, he fell off a horse. He also got hurt badly when he got home one day, tripped over a cat, fell down the stairs and banged his head.

While working on the farm, he broke his fingers with a hammer and crashed a tractor. But he hasn't only had accidents with machines and animals. 'I'll never forget when Mick stepped on a potato, slipped and broke both his ankles,' his wife Evelyn says.

But Mick has never complained or got angry about his injuries. 'It's important to keep going and get better when these things happen,' he says with a smile. And his wife agrees. 'It's a bit of a joke.'

FACT! In the UK, 40% of workplace injuries that aren't fatal happen when someone slips on or trips over something. The government believes it costs hospitals over £100 million to help these people.

LIVING WITH TIGERS

In the Sundarbans region in Bangladesh, thousands of people go into the forests every day to fish, hunt and look for honey and **firewood**. The work is difficult and it can also be very dangerous because the forests are home to lots of **wildlife**, including around 114 tigers.

Deadly tiger attacks are common in the Sundarbans. In the last four years, tigers killed over 30 people in the area. The local people feel scared and they worry that the tigers will come into their villages and attack them. They sometimes go into the forests and kill the tigers.

With the help of a tiger charity, local people are learning how to live and work close to tigers, how to look for tiger marks on the **forest floor** and listen for the sounds from other animals when there is a tiger nearby. **Charity workers** also tell people where the attacks have happened. They learn not to run away when they see a tiger, but to look at it and make lots of noise.

The tiger is a big part of the culture here. The people sing songs about tigers and tell stories about tiger gods. The charity hopes that the people will learn to understand the tigers better, and will be able to live safely with these beautiful animals.

FACT! There are only about 3,000 wild tigers left in the whole world.

2 Before the 16th Century, New Year's Day was ...

- b is also a type of tree.
- c doesn't grow on trees.

5 Big Ben ...

- a has now got a digital face.
- b is in London.

People believe that April Fools' Day began in the sixteenth century when New Year's Day moved from 1 April to 1 January. Of course, there wasn't any TV or internet so people didn't know about this change until several years later. People who continued to celebrate New Year's Day on 1 April were called fools.

Playing jokes on 1 April is still normal in English-speaking countries today. News programmes enjoy the fun too! Here are two of the most famous jokes from the British TV channel, the BBC.

In 1957, they showed a programme about spaghetti growing on trees. A lot of people thought it was true and they phoned the BBC to ask where they could buy the trees.

Then, in 1980, they said that Big Ben, the famous clock in London, had a new digital face. Everyone was very unhappy about the change until the BBC told them it was an April Fools' joke!

What a load of rubbish!

by a member of the School Recycling Team

Have you ever thought about the amount of stuff we throw away every single day? The next time you're in town, have a look around. There's rubbish everywhere, from cartons on the street outside fast food restaurants to plastic bags and empty drink cans simply thrown away anywhere.

We should be proud of our town so why don't we do something about this problem? Let's start a recycling campaign. We can collect anything that people have dropped on the streets and take it to the recycling centre.

You can also help by organising a team of rubbish collectors to spend a couple of hours in town, picking up all the litter. We'll provide bags and gloves so all you need is enthusiasm!

But why stop there? Our school needs to raise money so let's help by organising an end-of-term sale. We can collect books, CDs and DVDs as well as clothes. Then we can use any money we get to buy some sports equipment for the school.

Mrs Jones is allowing us to store all our donations at the school until our sale so please get started now. Take some leaflets and tell everyone you know to follow us on social media. Together we can make a difference!

Reading

11 Read these tips from students on how to relax.

a Ben

I can sometimes look at the same page in my book and an hour goes by and I haven't learnt anything! So I put my books away, get my bike and go for a ride. We're lucky that we live in the countryside, so there are a lot of paths to follow.

c David

I know I need to get enough sleep, so I try not to have any food or drink that will keep me awake. I don't have any lemonade or cola in the evening. And it's really hard, but I try to eat junk food only at the weekends. I can stay in bed a bit longer in the mornings then!

e Mark

When I need to relax I just put my headphones on and play my drums. Nobody can hear me so I can play them as loud as I want. It's brilliant and really good exercise. People laugh, but you should try it and see. You'll need a rest after 20 minutes!

b Sophie

I often play my favourite computer game when I want to relax. I love games that can teach me something, like history. I hate the ones with people fighting! I know sometimes I spend too much time in my own little world but at least I feel better after having time for myself.

d Lisa

I'm learning to play the piano at the moment, and when I need a rest from studying, I just sit down and play something. I'm not very good at it, so my brother usually tells me to stop! But I still enjoy trying!

Which person

- 1 is happy even though they're doing something badly?
- 2 gets tired after playing a musical instrument?
- 3 escapes by using technology?
- 4 is careful what they eat before bed?
- 5 spends time outdoors?

HALLOWE'EN

Every year, on 31 October, many countries all over the world celebrate Hallowe'en. This is a popular festival in Britain and America, but there are also people from other countries that enjoy carving pumpkins into jack-o'-lanterns, dressing up as witches and ghosts and scaring each other.

Hallowe'en is a very old celebration. Its origins date back almost 2000 years to the ancient Celtic festival of Samhain. The Celts in Britain, Ireland and parts of France celebrated New Year on 1 November. They believed that on the night before New Year, the spirits of the dead would return to earth, so they lit bonfires and wore costumes and masks to scare these ghosts away.

With the spread of Christianity, 1 November became the day to honour all saints (All Saints' Day). The evening before this was known as All Hallows' Eve, or All Saints' Eve, and later Hallowe'en. Today, however, it is not just a religious festival.

Hallowe'en is a time of fun activities like costume parties, trick-or-treating or telling scary stories. Trick-or-treating is a special custom that began in America and it is the modern version of 'souling'. Souling was a tradition where poor people went from house to house promising to say prayers for the dead in exchange for food.

These days, children knock on people's doors dressed up as witches, monsters and ghosts, and ask for sweets.

Other popular symbols for Hallowe'en are vampires, witches, spiders and animals that are active at night such as black cats, owls and bats.

1 Work with a partner. Answer the questions.

- 1 What do you think about Hallowe'en?
- 2 Do you celebrate Hallowe'en in your country?
- 3 What's your favourite festival in your country?

2 Look at the pictures below. What's their connection to Hallowe'en?

3 Read the text. Mark the sentences true (T) or false (F). Correct the false sentences.

- 1 People celebrate Hallowe'en only in Britain and the USA.
- 2 For the Celts, New Year began in November.
- 3 Only poor people go 'Trick-or-Treating' today.
- 4 Jack-o'-lanterns are made of pumpkins.
- 5 Animals that aren't active at night are popular symbols of Hallowe'en.

People also make jack-o'-lanterns, usually from carved pumpkins. They take out the middle of this large vegetable, and then they make holes for the eyes, nose and mouth, and they put a candle inside. Light is a symbol for power over darkness, and this is why we light candles in pumpkin lanterns and put them outside our homes: to keep the darkness away and scare off any unwelcome visitors!

4 Find out which countries around the world celebrate Hallowe'en. Choose one country and search for pictures and information on the internet. Make a photo album to show how Hallowe'en is celebrated there. Present your album to the rest of the class.

5 Now write a short letter to a British friend about how you celebrate Hallowe'en in Romania.

APRIL FOOLS' DAY

April 1st is April Fools' Day in the UK. It is a day when people play practical jokes and tricks on each other. When you play a joke on someone, you shout 'April Fool!' The 'victim' of the prank is the April Fool!

Where exactly does this custom come from?

No one really knows how or where the custom started.

April Fools' Day is a very old tradition that is thought to date back to the 16th century. At that time, in France, people celebrated New Year on 1 April. Because they didn't have the modern means of communication that we have today, many people didn't find out about the introduction of a new calendar which celebrated New Year on 1 January. Others decided to ignore the change of date or they simply forgot about it. All these people were called fools.

Over time, playing pranks on 1 April has become a tradition in other countries as well. These days, April Fools' Day is an international festival of fun with different ways of playing harmless pranks. Among the most common pranks are telling a friend that school has been cancelled or pointing to a friend's shoe and saying 'Your shoelace is untied' even though it's not.

● **The best trick is the one where everyone laughs, both the joker and the 'victim'.**

1 Answer the following questions with a partner.

- 1 What do you know about April Fools' Day?
- 2 Do you have a similar day in Romania?
- 3 Do you like April Fools' Day? Why/Why not?
- 4 Do you like practical jokes?
- 5 What was the last trick you played on someone?

2 Read the text and answer the questions.

- 1 When is April Fools' Day celebrated?
- 2 Who is the April Fool?
- 3 What's the origin of April Fools' Day?
- 4 What are some common pranks?

3 Search for well-known pranks on the internet and choose five. Discuss them in pairs and give your opinion.

4 Now make up your own April Fools' trick. Write a short description and present it to your class as 'My April Fools' Trick'. Your classmates will decide which is the funniest.

Arthur Conan Doyle was born in 1859 in Edinburgh, Scotland.

Get Reading

The first time you read a text, read it quickly, without stopping. Don't worry if there are parts you don't understand or words you don't know. Keep reading! Try to get a general idea of what the text is about.

- A When I got to the top of the hill the sun was already going down. The hillsides below me were golden-green on one side and grey shadow on the other. There was no sound and nothing moved on the moor.* One great grey bird flew over my head. He and I seemed to be the only living things between the blue sky and the empty land. But down below me there was a circle of old stone huts.* One of these still had enough roof to keep a person dry when the weather was bad. My heart jumped as I saw it. This must be the stranger's hiding place – I could now find out his secret! 5
- B A little path through the rocks took me down to the door. Everything was quiet. The man could be waiting inside, or he could be outside on the moor. I closed my hand on the gun in my pocket, walked quickly to the door and looked in. The hut was empty.
- C But I was right. This was the place where the man lived. Some blankets in a corner showed me where he slept. I could see the ashes of a fire in the old fireplace. Next to it there were some cooking pots and a bucket of water. Empty tins were lying on the floor, so I knew that someone had used the place for several days. An old table stood in the middle of the hut, and on this I found a small bag. Inside there was some bread, some tins of meat and two tins of fruit. 10
- D Then I noticed a piece of paper under the bag. I picked it up and read it. It said, 'Dr Watson has gone to Coombe Tracey.' This secret man was collecting information about me! Who was he? What was he doing here? Was he my enemy? I knew I could not leave the hut until I had answers to these questions. 15

Adapted from *The Hound of the Baskervilles* by Arthur Conan Doyle

*moor an open area of hills covered with rough grass, especially in Britain

*hut a small, simple building, usually consisting in one room

- 3 Answer the questions.

- 1 Who or what was Doctor Watson looking for?
- 2 Did he find anything important in the hut?

- 4 What do you think happens next in the story? Work with a partner. Ask and answer Watson's questions.

- 1 Who is the 'secret man'?
- 2 What is he doing on the moor?
- 3 Is he Watson's enemy?

5 Read the next part of the text. Who do you think the stranger is? How do you think Watson feels when he finds out?

E Outside the sun was getting low. In the west the sky was brilliant with red and gold, and these colours were shining from pools of water on the moor. I could see the two towers of Baskerville Hall, and far away a curl of smoke came from the village of Grimpen. All was quiet and lovely in the golden evening light. But I could not enjoy this beauty. I was thinking only of my meeting with the stranger. Every minute was bringing it closer. Cold and alone, I sat in the dark corner of the hut and waited for the man to come. 20

F And then finally I heard him. Far away came the clink of a boot hitting a stone. Then another and yet another, slowly coming nearer and nearer. I pushed myself back into the darkest corner and took out the gun from my pocket. I knew I must not show myself until I could see this man. For a few moments there was no sound and I knew he had stopped. Then once more the footsteps came towards me and a shadow fell across the opening of the hut. 25

G 'It's a lovely evening, my dear Watson,' said a well-known voice. 'I really think you will be more comfortable out here than inside.'

6 Read both parts of the text again. Then put these sentences about Doctor Watson in the correct order.

- a) He saw a small building.
- b) He sat down in a corner.
- c) He walked down the hill.
- d) He checked that no one was inside the hut.
- e) He heard someone coming.
- f) He climbed the hill.
- g) He looked at the things inside the hut.

Reading A short biography

- 1** You are going to read part of a novel by a famous English writer. Read about her life and complete the fact sheet.

George Eliot (1819–1880) was the pen name of the English writer Mary Ann Evans. She grew up in the countryside and was very close to her older brother Isaac. When she was 16, her mother died and Mary left school to look after her family for the next 14 years. When her father died in 1849, she moved to London, where she organised a magazine and wrote articles for it. Ten years later, the first of her seven novels appeared. A lot of the ideas in *The Mill on the Floss* (1860) came from her own life.

George Eliot

Brother's name: ³....

Moved to London at the age of ⁴....

Published her first novel in ⁵....

Total number of novels: ⁶....

- 2** Why do you think this writer used a different name when she wrote her books?

Reading A long extract from a novel

- 3** The main character in *The Mill on the Floss* is a girl called Maggie. Read the first part of the text and answer the questions.

- 1 What is the relationship between Maggie and Tom?
- 2 Who is Mrs Tulliver?
- 3 What was Maggie's 'big idea'?

"Well, how are you? I hope you're good children, are you?" said Aunt Glegg. "Put your hair behind your ears, Maggie, and keep your dress on your shoulder."

"I think the girl has too much hair," Aunt Pullet said. "It should be thinner and cut shorter. It isn't good for her health."

- 5 "Maggie," said Mrs Tulliver, "go and brush your hair."

A big idea was taking shape in Maggie's mind. "Tom, come out with me," she whispered. "There's something I want to do before dinner."

Tom followed Maggie upstairs into their mother's room. She opened a drawer and took out a large pair of scissors.

- 10 "What are they for?" said Tom.

Maggie answered by taking the front part of her hair and cutting it straight across the middle of her forehead.

"Oh, Maggie, you'll be in trouble!" exclaimed Tom.

- 15 Snip! went the scissors again, and Tom couldn't help feeling it was rather good fun. Maggie would look so weird.

"Here, Tom, cut it behind for me," said Maggie, excited by her own bravery.

"You'll be in trouble, you know," said Tom, as he took the scissors.

"Never mind, hurry!" said Maggie, giving a little *stamp with her foot. Her cheeks were red.

- 20 One delicious snip, and then another and another. The hair fell heavily on the floor, and Maggie stood there, badly *cropped but with a new sense of freedom.

*stamp an act of putting the foot down on the ground, or the noise made in doing so

*crop to make something shorter or smaller, especially by cutting

- 4** What do you think happens next? How will Tom react to Maggie's appearance? How will the adults react?

5 Read the next part of the text and check your answers to Exercise 4.

"Oh, Maggie," said Tom, jumping round her and slapping his knees as he laughed. "Oh, you look so weird! Look in the mirror."

Maggie felt an unexpected *pang. She had only wanted to get free from her annoying hair and people's annoying comments about it. She didn't want her hair to look pretty. But now, when Tom began to laugh at her, everything seemed different. She looked in the mirror. Tom was still laughing and clapping his hands. Maggie's cheeks lost their colour and her mouth started to tremble a little.

"You'll have to go down to dinner now," said Tom. "Oh, Maggie!"

"Don't laugh at me, Tom," said Maggie, stamping, and giving him a push.

"Now then, spitfire!" said Tom. "Why did you cut it off, then? I'm going down. I can smell the dinner going in." He hurried downstairs and left poor Maggie alone.

After some time, she stood up, slowly made her way downstairs to the dining room and went towards the empty chair.

Mrs Tulliver gave a little scream and dropped her spoon. All eyes turned towards Maggie, whose cheeks and ears began to burn, while Uncle Glegg said:

"Hey! What little girl's this? I don't know her. Is it some little girl you've picked up in the road?"

"For shame!" said Aunt Glegg, in her loudest voice. "Little girls who cut their own hair should be *whipped and fed on bread and water, not come and sit down with their aunts and uncles."

"Yes," said Uncle Glegg, meaning to be playful. "She must go to prison, where they'll cut off the rest of her hair."

"She's a naughty child who will break her mother's heart," said Mrs Tulliver, with tears in her eyes.

Tom whispered, "I told you you'd be in trouble!" and it seemed to Maggie that he was enjoying the scene. Her heart *swelled, and getting up from her chair, she ran to her father, hid her face on his shoulder and burst into tears.

***pang** a sudden sharp feeling, especially of painful emotion

***whip** to hit a person or an animal with a whip

***swell** to become larger and rounder than usual; to (cause to) increase in size or amount

PERCENTAGES

The word 'per cent' comes from Roman times.

It comes from the Latin words *per centum* or 'out of 100'. Before the Romans, the ancient Egyptians used a similar system of numbers in tens. But the numbers from 0 to 9 that we use today come from the ancient Arab world, over 2,000 years ago. The Arabs also used fractions, for example, $\frac{1}{4}$. We use percentages to calculate how much a part of a whole is. And when we say 'per cent', we're really saying 'out of 100'.

When we calculate a percentage of something, first we need to know the total number of things, or 'the whole'. The whole is 100%. For example, there are 12 cakes on a table. In this calculation, 12 is the whole and is 100%.

Next, we need to know the number we want to change to a percentage. For example, Tanya eats three of the cakes on the table so three is the number we want to change to a percentage.

We put these two numbers into a fraction. In our example, we need to calculate what percent three (number of cakes Tanya ate) is of twelve (total number of cakes). The fraction is $\frac{3}{12}$. $3 \div 12 = 0.25$.

Finally, we multiply this number by 100 to make a percentage. $0.25 \times 100 = 25$.

So Tanya ate 25% of the cakes.

- 3 Would you like to live in the Middle Ages? Why?/Why not?

THE FEUDAL SYSTEM

In Europe in the Middle Ages – from the 5th to the 15th century – some people owned land and some people lived or worked on the land. This system was called the feudal system. It was a hierarchy because some people were at the top and some people were at the bottom.

1

The ¹..... was at the top of the feudal system. He owned too much land to look after by himself so he divided it up, and gave some of it to people called 'nobles' to rule for him. These different areas of land were called fiefs. When a king died, his son became the owner of the fiefs.

2

The ²..... looked after the king's land. They ruled large fiefs. They paid tax to the king and sometimes helped him in wars and battles. These people were less important than the king in the hierarchy but very important in the local community.

3

Nobles usually employed ³..... to help protect their fiefs. They were often heroes because they were strong and brave, especially in battles. They always helped the king when he asked them and protected him. Most of them were men, but some were women.

4

About 90% of people in the Middle Ages were ⁴..... They were at the bottom of the hierarchy. They didn't have land or money like the other members of society. They worked on the land for the nobles, growing food and looking after animals. They paid taxes to the nobles and worked all day. Life was very hard for these people.

- 1 Look at the photos. Which words in the box can you use to describe each building?

modern old-fashioned practical
comfortable functional attractive simple

- 2  Read and listen to the text. Which building in Exercise 1 do you think is Bauhaus?

Bauhaus was an art school in Weimar, Germany. German architect Walter Gropius started the school in 1919. The Bauhaus school tried to combine form (the shape of something) and function (how we use something) in architecture so that buildings were practical but also simple. Bauhaus architects didn't like lots of decoration on buildings; they preferred flat roofs, straight lines and geometric shapes. Before Bauhaus, architects used lots of different shapes and colours, and materials like marble, hardwoods and even gold for the decorations in their buildings. Bauhaus used metal, glass, steel or plastic to make their buildings. Typical colours are white, grey and black. The designs for the furniture inside Bauhaus buildings are also simple, and functional.

- 3 Read the text again. Mark the sentences true (T) or false (F). Correct the false sentences.

- 1 The Bauhaus style began in a school in Germany.
- 2 Bauhaus buildings are traditional and attractive.
- 3 The buildings used more basic materials than in the past.
- 4 You can only see the Bauhaus style in buildings and architecture.

2 Read and listen to the text and check your ideas to Exercise 1.

Supercomputers

Personal computers help us to communicate and organise our lives. They help us to work and also to have fun. But in science, the type of computer that we use every day isn't powerful enough. Scientists need more powerful computers to help them understand the world around us. They use these 'supercomputers' to do experiments that could be difficult or dangerous in the real world. Supercomputers are huge and are much faster than personal computers. Some of them can do more than one quadrillion (1,000,000,000,000,000) calculations in a second.

A supercomputer can work so quickly because it has many CPUs. The CPU, or Central Processing Unit is the brain of the computer. It can process information very fast and accurately. Scientists use this power to make virtual physical worlds that help them with research.

Every time you see the weather forecast on TV, you are seeing the work of very powerful supercomputers. Scientists use these computers to tell us if it's going to be sunny at the weekend, to show how aeroplanes can save fuel by flying with the wind, and also how the weather is going to change in the future.

As for the future, experts believe that one day computer scientists will build the ultimate supercomputer that can think and act just like human brains. Perhaps one day computers really will rule the world!

FUNCTIONAL ZONES

Functional zones in a city are the areas where people go to do particular things. There are three main functional areas in a modern city: the CBD (central business district), the industrial zone and the residential zone.

The CBD is often called the city centre. It is usually in the historic centre of a city. It has most of the shops and services, like banks, libraries, and also offices and the town hall. There are also places for entertainment like theatres, cinemas and swimming pools. Land is expensive in the CBD so there are often a lot of tall buildings like skyscrapers. Some historic cities don't have these more modern buildings because they want the city to look traditional.

The industrial zone is where the factories, warehouses and industries are. Many years ago, these zones were in the centre of cities, but they moved out, probably because of the noise and pollution. This area is usually less attractive than the central areas. Workers often travel here from where they live, so these zones usually have good transport links for trains and cars to move people, materials and products to and from the factories.

Residential zones are often on the outside of a city. The buildings are newer and the land is cheaper here so this is where people, especially families, live. There are schools and more open spaces like parks, and there is less traffic and pollution than in other zones.

Information leaflet about a festival

WHERE AND WHEN

May Day is a traditional festival. People celebrate it across Europe and the USA every year on the first day of May. In the UK, it's a public holiday so not many people work on this day.

HISTORY

Most people think that May Day started as a Roman festival to celebrate the end of winter and the start of summer. The first of May used to be the first day of summer in Europe.

ACTIVITIES

In the UK, there are celebrations all around the country to celebrate May Day, with traditional events and activities. One traditional activity is 'May pole dancing'. In this activity, people dance around a tall pole with colourful ribbons. The ribbons create a decorative pattern at the top of the pole as the people dance around it. A lot of schools in rural areas organise maypole dances for their pupils.

Another traditional dance during May Day celebrations is 'morris dancing'. Dancers dress in white clothes with bells attached to them and carry scarves and long wooden sticks. The participants hit their sticks together in the air as they perform a special dance. The bells on their clothes make sounds as they dance to traditional accordion music.

Other traditions include making displays with flowers, decorating houses with flowers and leaves, and special processions through the streets with people dressed in special costumes or fancy dress.

FOOD

There isn't much traditional May Day food, but at May Day events you can typically find traditional British cakes, biscuits and desserts. Fast food like hot dogs and hamburgers are also common.

A travel brochure Visiting cool places

Visit the medieval town of Sighișoara in Transylvania

- First documented in 1280 AD, Sighișoara (Schäßburg - Schassburg or Schäsbrich in German) is one of the best-preserved medieval towns in Europe. It was built by the Saxons and was used as a military and political stronghold.
- People say it is the birthplace of the notorious Vlad Dracula (also known as Vlad the Impaler), who ruled the province of Walachia from 1456 to 1462 and inspired Bram Stoker's fictional character, Dracula.
- With cobbled streets, colourful buildings, ornate churches and a pedestrian-friendly Old Town, you can't help falling in love with Sighișoara. It can get a bit crowded in the summer, but it's definitely worth visiting.

Here are but a few of the places you can visit in town:

- Cetatea Sighișoara (Sighișoara Citadel)
- Piața Cetății (The Citadel Square)
- Turnul cu Ceas (The Clock Tower)
- Biserica Mănăstirii Dominicane (The Church of the Dominican Monastery)
- Biserica din Deal (The Church on the Hill)
- Casa Vlad Dracul (Vlad the Impaler's House)
- Casa Venețiană (The Venetian House)
- Camera de Tortură (The Torture Room)

You can also attend the Festival of Medieval Arts and Crafts in July.

How to get there:

- by car: Highway A1 or National Road E60
- by train: Sighișoara Train Station

- by plane: Târgu-Mureș International Airport

- by bus: Sighișoara Bus Station

Prepare
